

# CALI<sup>®</sup> vinyl

## Builder's Choice XL

Distributed by Bamboo-Design.ca

### Build Expansively

Designed with professional-grade durability, Builder's Choice XL offers longer, broader luxury vinyl planks, perfect for fast home or commercial upgrades. A 100% waterproof construction, rapid click-lock milling, and strengthening limestone composite core make flooring easy to install and clean in any room without the need for glue, nails, or acclimation. An ultra-thick 20mil wear layer delivers scratch protection while built-in acoustic padding provides boosted sound insulation. Not one to sacrifice brawn for beauty, the XL collection also boasts rich hardwood visuals so authentic you'll wonder if you're standing on actual timber.

### Available Colors

Canyon Cove

Dover Beach

Paradise Pine

Seaswept Oak

Skyline Pine

Tidal Pool Pine

## Ready, Set, Get Wet

100% waterproof planks are exactly that, meaning Builder's Choice XL can be installed in every room including kitchens, bathrooms, and basements. This also makes for easy cleaning!

## Go Long

The XL collection's longer, wider planks make rooms feel more expansive, open, and modern. Plus, broader boards mean installations go faster, saving time, money, mess, and energy.

## Bad to the Bone

A backbone of limestone composite within each plank resists indentation and delivers 50% better dimensional stability (less expansion and contraction), requiring no acclimation or transition pieces.
